

Contact **Michelle Bish** at **724-589-4740**
and find out what makes the Philips **GoSafe 2** the simplest installation
of all systems offered by Philips Lifeline safety technology!

Ready. Set. Go!

Introducing the new GoSafe 2 mobile medical alert service from Philips Lifeline. Our first all-in-one solution is perfect for those seniors who lead a more active lifestyle.

GoSafe 2 features:

- GoSafe 2 uses more than GPS to help find you in an emergency situation. With one pendant, Philips Lifeline can engage up to 5 different locating technologies to help responders identify your location in an emergency.¹
- Using two-way voice communication, the GoSafe 2 pendant allows you to speak directly with a Lifeline trained Response Associate, providing you fast, easy access to help.
- GoSafe 2 is complete with AutoAlert fall detection technology. If a fall is detected, AutoAlert can automatically place a call for help, even if you can't push the button yourself.²
- The sleek, lightweight pendant is water resistant³ and offers up to 3 days of battery life on a single charge and can even be charged while you are wearing it.¹
- You decide who comes to help you – a neighbor, loved one, caregiver or emergency services. The Philips Lifeline Response Center will dispatch the help you choose.

1. GoSafe 2 coverage inside and outside the home is provided where AT&T wireless network coverage is available.

Recharging of the GoSafe 2 pendant is done by the subscriber as needed, when connected to the charger.

2. AutoAlert does not detect 100% of falls. If able, a subscriber should always push their personal alert button when they need help.

Button signal range may vary due to differing environmental factors.

3. Up to one meter of water for 30 minutes. Refer to IFU for more details.

How does GoSafe 2 compare?

	Philips Lifeline GoSafe 2	Mobile Help Solo	Great Call Lively	Nortek Numera Libris
